

Authorization for Uses and Disclosures of Protected Health Information Health-Related Materials

I hereby authorize my physician to release to Phreesia's Check-in system my health information entered during the automated Check-in process, or on file with my physician, to help determine the health-related materials I will receive as part of my use of Phreesia. The health-related materials may include information and advertisements related to treatments and therapies specific to my health status. The materials may be provided by my health insurance plan, a pharmaceutical manufacturer or another healthcare entity. Phreesia may receive a payment for making such information available to me through the Check-in System or Phreesia's Patient Communication Services including items such as newsletters, patient reminders for visits, medication/treatment adherence and other practice-related services.

My physician is using Phreesia's secure platform to enhance the patient-physician experience and eliminate inefficiencies associated with Check-in.

The following is the Authorization to provide me personalized educational health content and to allow Phreesia, on behalf of my physician, to conduct analytics using some of the information that I provide to gain insight into and support the effectiveness of this educational health content.

Utilizing Federal guidelines and its corporate policy, Phreesia, on behalf of my physician, ensures that all patient-related health information is protected by administrative, technical, and physical safeguards.

Phreesia will safeguard my personal information and will not use it for any purpose, other than to: provide health-related materials to me; and anonymously analyze health outcomes in support of that educational health content, as well as to measure the effect of the health-related materials furnished to me on my communications with me or my family member's physician (this analysis is computer-automated and involves no human review of my protected health information).

Although there is the potential for information disclosed pursuant to this Authorization to be subject to redisclosure by the recipient and no longer be protected by federal privacy rules, Phreesia maintains administrative, technical, and physical safeguards as required by the Federal Government's Health Information Privacy Rule, or "HIPAA," to protect each patient's confidential information. Phreesia does not disclose personally identifiable information to anyone other than each patient's physician without this Authorization or as governed, permitted or required by law.

I do not have to grant this Authorization but, if I do not, I will not receive personalized health-related material. I understand that my physician will treat me regardless of whether I grant this Authorization.

I have a right to receive a copy of this Authorization. I may change my mind and revoke (take back) this Authorization at any time, except to the extent that my Physician or Phreesia has already acted based on this Authorization. To revoke this Authorization, I must contact my physician c/o Phreesia in writing (including my name, date of birth, gender, home address and physician's name) at: Privacy Officer, Phreesia, Inc., 432 Park Avenue South, 12th floor, New York, NY 10016; or PrivacyOfficer@Phreesia.com. This information will not be used for any purposes other than to verify my identity in order to revoke this Authorization.

This Authorization is valid for the following time periods:

- One year from the date on which I grant this Authorization – for use in delivering personalized health-related materials from my physician on the Phreesia platform;
- When the Patient Communication Services Program Concludes – for use in delivering Phreesia's Patient Communication Services on behalf of my physician; and
- When the Analytics Conclude – for use in Phreesia's analytics programs

Phreesia is a business associate of my physician and is bound by federal law to protect and safeguard my privacy.
